

Dropmaster Fire Sprinkler

Gecco Inc. developed the Dropmaster's patented siphoning system nearly a decade ago to help the fire protection contractor increase productivity and profits by eliminating the need to use buckets and tarps while changing sprinklers. Made in the USA, the Dropmaster is durable, built to last, and proven in the field. Every Dropmaster comes with a one year warranty.

- Powered by a 3/4 hp, high torque, low amp motor.
- 1/3 hp discharge pump, capable of pumping 135 lpm.
- 25 mm suction and discharge hoses.
- Supplied with a power cord
- Factory set tamper-proof relief valve, maintains a 10" Hg vacuum.
- 250 mm Pneumatic Tyres — easily rolls over most construction site obstacles.
