### MATERIAL DESCRIPTION

TBA Firefly Intumastic is a water based acrylic sealant.

### CERTIFICATION

Tested in both vertical and horizontal applications.

Tested in accordance with AS1530.4-2014  
Assessed in accordance with AS4072.1-2005

Warringtonfire Report No's:  
FAS190234 RIR  
FAS190235 RIR  
FAS190236 RIR

### Sizes

310ml Cartridge (25 in a box)  
600ml Sausage Foil Pack (12 in a box)  
5kg Tub Brush Grade

**FRL -/240/240**

### APPLICATIONS

Used for sealing around services and for gluing the TBA Firefly Penowrap to substrates & to TBA Firefly Intubatt. TBA Firefly Intumastic Brush Grade is used to butter up the cut edges of our TBA Firefly Intubatt prior to rejoining them around service penetrations. Once the Intubatts are installed the cartridges or sausages are used to fill any small gaps and holes between the Intubatt and the services to create a neat and tidy seal.

For specific applications and FRLs achieved please refer to the referenced Compliance Reports. Must be installed in strict accordance with the construction details contained within the Compliance Reports.
