

## Threaded Studs for Wear Plate

Antec carry a large range of threaded Arc Studs for use on wear plates such as hardox and bisalloy.

Typically the reduced base style arc stud is preferred as the weld collar is very close to the thread diameter, therefore reducing the hole size required in the side walls these are typically mounted to.

Threaded Arc Studs	
16 x 30	20 x 40
16 x 35	20 x 45
16 x 40	20 x 50
16 x 45	20 x 55
16 x 50	20 x 60
16 x 55	20 x 65
16 x 60
